

Letter of Recommendation

To the Admissions Committee:

I am pleased to recommend Isaac Asiedu for admission to a graduate program in Information Systems, Business Analytics, Artificial Intelligence, or a related field.

I had the opportunity to teach Mr. Asiedu in ITM 111: Introduction to Databases through BYU-Pathway Worldwide. In this course, he earned a final grade of 97% (A), demonstrating a strong commitment to academic excellence and mastery of the course material.

Throughout the course, Mr. Asiedu consistently submitted high-quality work, met deadlines, and demonstrated the discipline required to succeed in an accelerated online learning environment. He effectively utilized available learning resources, planned his work well, and maintained a high level of engagement with the course content.

Based on my observations as his instructor, Mr. Asiedu demonstrated analytical thinking, strong problem-solving abilities, and the capacity to learn technical concepts independently. His academic performance and work habits indicate that he is well prepared for the demands of graduate-level study.

I am confident that he will approach advanced academic work with the same diligence, professionalism, and commitment to learning that he demonstrated in my course. I recommend him without reservation.

Sincerely,

/s/ Dr. John Marlowe
